

ENVIRONMENTAL POLICY

We regard environment conservation as one of our management priorities, and are committed reducing any negative environmental effects that might arise in the course of our business activities. We develop our products in such a way that the effects on the environment during production and use are minimised. We are committed to continually reduce environmental pollution as far as economically possible.

SANHUA AWECO Appliance Systems undertakes to manage the environmental impact of their operations in line with the compliance obligations, the ISO14001-standard and customer specific requirements. We aim at continuous improvement in environmental protection and work safety, at preventing environmental pollution and accidents at work.

In the scope of environmental protection and OH&S SANHUA AWECO Appliance Systems commit to:

- Providing environmentally friendly products, promoting environment conservation and pollution control, and contributing to the creation of a society where people and nature happily coexist.
- Manage the existing and new processes considering the environmental aspects, legal requirements and other human health and life hazards.
- Improve the management of waste as well as chemical substances and preparations.
- Separation of waste and ensuring appropriate disposal
- Identifying major environmental impact and major occupational risk to be able to set adequate improvement objectives.
- Increase our employees' awareness of their impact on environment and occupational risk,
- Improve emergency response system,

Every employee is obliged to contribute to environmental protection at the site
